

■ Tailwind CSS Projects Roadmap (Basic → Advanced)

■ Beginner (Basics & Utility Classes)

- Profile Card – photo, name, description, button (flex, shadow, hover)
- Pricing Table (3 Plans) – grid, hover:scale-105, gradients
- Login / Signup Form – focus:ring, rounded, placeholder, shadow-md

■ Intermediate (Layouts & Components)

- Responsive Navbar with Dropdown – flex, justify-between, responsive utilities
- Landing Page Hero Section – text-center, container, grid md:grid-cols-2
- Dashboard Layout – sidebar + topbar + content cards (flex h-screen, divide-x)

■ Advanced (Animations & Complex UI)

- Dark Mode Portfolio Website – dark:bg-gray-900 dark:text-white
- E-commerce Product Page – grid, hover:shadow-2xl, responsive breakpoints
- Animated Modal & Toasts – transition, ease-in-out, animate-bounce/fade

■ Pro Level (Full Website & Integration)

- Blog Website UI – navbar, hero, blog cards, footer (Tailwind Typography)
- Admin Dashboard (Charts + Tables) – table-auto, overflow-x-scroll, grid
- Tailwind + JavaScript Project (Task Manager App) – combine Tailwind with JS
